

The AI Brain™

Licensing Authority & Deployment Readiness Statement

This document establishes the official licensing posture, deployment readiness, and authority framework governing The AI Brain™.

The AI Brain™ is a system-level governance and safeguard architecture designed to operate alongside advanced AI systems. It does not replace underlying AI models or infrastructure.

Licensing Scope

Licensing is selectively granted for institutional, enterprise, and strategic deployments following qualification review.

Authority & Control

All licensing authority, deployment approval, and operational governance remain under Roy Webb Productions Inc.

Limitations

The AI Brain™ does not provide legal advice, regulatory approval, or operational guarantees.
